- **Other Skills:** Algorithms, Data Structures, System Analysis, Effective Communication

Professional Experience

Agar & Waffar – Mobile Application (Project Graduation 2026)

Agar & Waffar is a mobile application designed to help users discover the best deals, discounts, and services in their area. The app connects customers with businesses and service providers, allowing them to browse offers, compare options, and save money through an easy-to-use and user-friendly platform. It provides a seamless experience with features such as user profiles, notifications, chat, multilingual support, and real-time access to available offers and services.

- Flutter, Dart, BLoC, Clean Architecture, REST API Integration
- Firebase Authentication & Notifications & Chat
- Localization (Arabic/English)
- Responsive UI Development
- Error Handling & State Management
- Git & Version Control
- Android & iOS Deployment
